Reference: Amended Year End Report (7/1/11-12/31/11), received 2/17/12

Dear Mr. McAllister:

This letter is in response to your request for additional information, dated April 27, 2012.

Your letter indicates that the above amended report disclosed an increase in receipts on line 11a. As the committee noted on its amended report, the original report was uploaded incorrectly. The committee uses the FEC filing software. It imports files provided by the direct mail processing company. Because the import process is difficult to use and unreliable, the committee creates a copy of the dataset each month prior to importing records. In this case, the committee inadvertently uploaded and filed the dataset that was saved prior to importing the direct mail receipts. When the committee started to prepare the next monthly report, it realized the error and amended the report immediately.

Procedures are now in place to avoid this from occurring in the future. The Committee apologizes for the error and has taken steps to ensure that this error will not be repeated.

Sincerely,

Lisa Lisker
Treasurer
